Good skin doesn't happen in one facial treatment. You need a consistent, customized and professional approach and home care.

1. **Cleanse gently** - Select a milk/balm cleanser that effectively cleanses and removes impurities from the skin without disrupting the skin's protective barrier.
2. **Add an Anti-oxidant** - It helps softens and protects damaged skin from free radicals and environmental damage. It also helps stimulating epidermal regeneration, reduces redness, allowing for a protected, healthy, dewy complexion.
3. **Remember Sunscreen** - It can assist significantly with premature skin ageing by helping to prevent sun damage, pigmentation, wrinkles and fine lines
4. **Professional Treatments** - A good skincare routine helps stimulate skin cell turn over to keep the skin looking healthy and feeling its best throughout your life. Ask us about your skin care!
